

PRODUCT DESCRIPTION:

This product is designed to be used as a high foaming car wash detergent. **WASH & WAX** is designed with the finest penetrating detergents, builders, solvents and chelates available on the market today. **WASH & WAX** can quickly penetrate, emulsify and remove even the most tenacious soils. All this is accomplished without the use of harsh caustics. This product is designed for hand washing of vehicles and imparting a polymer protective coating to the surface. This coating will enhance the gloss of the paint and repel water.

DIRECTIONS

Use **WASH & WAX** at the rate of 1 ounce per 4 gallons of water. Wash vehicle from the bottom up doing only small sections at a time. Rinse thoroughly from the top down. It is always preferable to wash vehicles in the shade as this will eliminate the detergent from drying on the paint surface. Do not allow solutions of this product to dry on surfaces. Always rinse thoroughly.
